Hello,

I am excited to apply for the Software Support Specialist position at ImagineSoftware, and I believe my experience in customer service and technical support would make me a valuable addition to your team.

You may notice from my resume that I have had several technical roles at different companies. I want to be transparent and explain that my previous roles were affected by significant health issues. While I enjoyed my work, I found myself struggling to balance my workload and maintain my health. This resulted in me leaving these positions earlier than I would have liked.

During my time off, I sought help and treatment to manage my health, and I am happy to report that I have made significant progress. I am now eager to re-enter the workforce and bring my renewed energy and skills to a company like ImagineSoftware.

In my previous roles, I have gained experience in handling customer inquiries, resolving technical issues, and providing exceptional customer service. I am confident that my communication skills, problem-solving abilities, and dedication to customer satisfaction would make me a strong contributor to your team.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Kind regards,

Clark
